Gentlemen

DOE has reviewed your letter of January 5, 1993. We have discussed the status of the OU 4, IM/IRA Milestones in our response to your letter of January 4, 1993. DOE remains committed to achieving the objectives of the IM/IRA in order to proceed with closure activities for the ponds. We appreciate the flexibility implicit in the strategy raised in your letter. We have begun evaluating the options you suggested, along with several other options for restructuring the Solar Ponds program. Due to the scope and complexity of the analysis, we require all of February to complete the work. We will be briefing the results to DOE/HQ on or about March 9, 1993. Therefore, we would like to defer submitting our formal results to you until March 15, 1993. At this time we would also have the results of our HQ direction and decisions. However, in the interim, we are eager to maintain open communications with you and your staffs as our analysis progresses. Please tell us if this is acceptable and will meet your needs.

If you would like to discuss the strategy options further, please call Frazer Lockhart at 966-7846 or Steve Howard at 966-3040.

Sincerely,

Richard J Schassburger
Acting Director
Environmental Restoration Division
